This memorandum is in response to comments submitted by Illinois Environmental Protection Agency (IEPA) regarding the site inspection report prepared by Ecology and Environment, Inc./FIT (E & E/FIT) for the City Dump site. IEPA comments were received on April 23, 1990.

E & E/FIT has reviewed these comments and added them to the site file. The following summarizes the IEPA comments and E & E/FIT responses.

1. References for the scoring package were missing. These have been included in the scoring package.
2. An observed release to groundwater was not projected for the LSI stage of the rescore. The site has been rescored, using the projected observed release. However, it is still recommended that the site not be considered for an LSI.
